MADE IN INDIA

PROUDLY MADE IN INDIA, CRAFTED WITH TRADITIONAL TECHNIQUES AND INSPIRED BY INDIA'S RICH SPIRITUAL HERITAGE.

HOW TO USE INCENSE STICKS

Using incense sticks correctly enhances fragrance diffusion and ensures a safe, pleasant experience.

LIGHT AND LET IT BURN EVENLY

Hold the tip of the incense stick at an angle and light it. Allow it to burn for a few seconds, then gently blow out the flame so it releases fragrant smoke.

PLACE IN A PROPER HOLDER

Always use a stable incense holder to catch ash and keep the stick upright. This ensures a clean burn and prevents mess.

USE IN A VENTILATED SPACE

Burn incense in a well-ventilated area to allow the fragrance to spread naturally without becoming too intense.

HOW TO STORE INCENSE STICKS

Proper storage helps retain fragrance strength and ensures long-lasting quality.

KEEP IN A COOL, DRY PLACE

Store incense sticks away from moisture and humidity to prevent them from becoming damp or losing their aroma.

AVOID DIRECT SUNLIGHT

Exposure to sunlight can weaken the fragrance oils and reduce the overall scent quality.

STORE IN AIRTIGHT PACKAGING

Keep incense sticks in sealed boxes or containers to preserve their natural fragrance and prevent external odors from affecting them.
